

Completed
2011

The summer of 2011 saw the final phase of the Front Street Project completed. Starting in the late fall of 2009, Front Street saw a number of improvements take place. Improvement included were a new 18" Sanitary Sewer Force Main, Waterline, Storm Drainage improvements, Curb and Gutters, Sidewalks, Landscaping, New Decorative Street Lights and signs, driving surface and pavement markings. The five phased project was paid for with City, State and Federal funds.
