Daily Visits: Administrative

On your initial visit, your group will line up along the outside wall to the facility. An instructor will locate a BSAP staff member, and the BSAP staff member, along with the instructor from your group, will take a number count of all participants (youth and instructors). At this time, the BSAP staff member will fill out the proper documentation. BSAP staff will also measure and mark anyone over 48", this will allow them to use the slides. When this is complete, the whole group will be walked to their designated area within the facility.

You will need to follow the steps above every time you visit the facility. Please call the inclement weather hotline at 816-871-5047 or the Bonner Springs Aquatic Park at 913-422-7011 to check opening/closing schedules due to inclement weather. If you will not be able to make one of your scheduled visits, please call the aquatic park to speak with a manager to cancel your time.

Recommendations:

1. Sunscreen should be applied 30 min. before entering the water to allow the blocking agent to be absorbed into the skin.
2. Each participant should come prepared with proper swimming attire, towel and sunscreen.

3. To round up your participants for departure, a BSAP staff member will be able to make an announcement over the speaker system. You will need to coordinate this with a BSAP staff member upon departure, when ready to make the announcement.

Requirements (please see the facility rules section for more details):

1. If you will be taking a bus to the facility, your bus will not be permitted to sit in the parking lot unless it is at the far end near the playground & soccer fields, as this takes up valuable parking space for other patrons.
2. Please read and understand all facility rules; these apply to youth and instructors.
3. It is expected that the leaders and instructors are aiding the BSAP staff in watching over your participants and enforcing rules.

1. Neither the City of Bonner Springs nor the Bonner Springs Aquatic Park is responsible for the loss of personal belongings.
2. Conduct, which may result in injury, is not permitted. This includes running, rough play; intentional splashing and personal conduct endangering safety of self and others (sitting on shoulders, hanging on back, throwing/flipping, flips off the side, etc).

Color, string, denim, etc. can easily get caught in the filter and can affect water chemistry.
6. Incontinent persons, Infants and babies not potty-trained are required to wear a swim diaper, which are available for purchase at the entrance. Diapers must be changed at the

diaper changing stations in the locker rooms or restrooms ONLY. Swim diapers ONLY, no cloth diapers. Swimsuits are required to be worn over the swim diaper. See the Cryptosporidium section in this manual for more information.

Slides

1. Riders must be 48" to ride. **No exceptions.** Participants will be measured prior to riding. Per the manufacturer. The threat of disorientation after entering the water is the reasoning behind this rule. The catch pool is 42", which means someone 48" is more likely to recover after disorientation than someone under this height, given the depth & current of the catch pool.
2. The lifeguard will issue the signal when the rider may start the ride.
3. Maximum rider weight is 300 pounds. Per the manufacturer.

4. Swimwear with exposed zippers, buckles, rivets, sunglasses and jewelry are not permitted. These pieces can scratch the slide; get caught in the joints or fall in the water. Per the manufacturer.
5. Riders must exit the splash pool immediately. Red slide exit at the stairs, yellow slide exit at the ladder. Participants need to be able to swim to the exit and recover by themselves.
6. Must ride feet first, sitting or lying on the back.
7. Do not run, dive, stand, kneel, rotate, or stop on the slide. Keep arms and legs inside the flume at all times.
